OBJECTIVE

Final-year AI & Data Science student with a strong foundation in **Python** and **Generative AI**. Eager to build **LLM-powered applications**, implement **prompt engineering** techniques, and develop AI prototypes to solve real-world problems.

EDUCATION

B.E. Artificial Intelligence and Data Science, Savitribai Phule Pune University 2026
CGPA: **8.86**

Diploma in Information Technology, Govt. Polytechnic, Latur 2020–2023

TECHNICAL SKILLS

Generative AI: LLM Basics, Prompt Engineering, Text Generation, Summarization, Chatbots
AI/ML Frameworks: Python (Strong), OpenAI APIs, Hugging Face, scikit-learn, TensorFlow
Data Processing: NumPy, Pandas, SQL/NoSQL, Data Validation, Data Modeling
Tools & Cloud: Azure OpenAI, Git, Jupyter, VS Code, Linux/Bash
Core Concepts: Transformers (Basics), Machine Learning, NLP, Proof-of-Concept Development

EXPERIENCE

Artificial Intelligence Intern – CodeClause (Remote) Jan 2024 – Feb 2024

- Leveraged **Python** for ML experimentation to optimize system reliability in a real-world environment.
- Developed validation layers to monitor data integrity and evaluated AI solutions for accuracy.

Web Development Intern – Bright Career Infotech Jul 2022 – Aug 2022

- Engineered an employee management system with robust **backend-to-frontend** integration.
- Developed modular, data-driven web scripts for CRUD operations and automated validation layers.

PROJECTS

AI-Driven Crop Recommendation System *Python, scikit-learn*

- Built a predictive model to translate raw soil and weather data into intelligent, actionable insights.

Real-Time Object Detection Pipeline *YOLO, OpenCV*

- Architected a live detection pipeline optimized for high-speed delivery and 100% system reliability.

Cryptocurrency Tracker & Visualizer *ReactJS, REST APIs*

- Developed a scalable application integrating **real-time APIs** for a seamless user experience.

CERTIFICATIONS & PUBLICATIONS

GenAI Focus: Azure OpenAI (Microsoft), Azure Data Engineering (Udemy).
Research: Face Recognition Ethics (IJCRT, 2024), Crypto Tracker (IJARSCT, 2023).
Additional: TATA Data Visualization, NPTEL Data Engineering.

LEADERSHIP

Class Representative (AI & DS): Managed department-level coordination for 4th-year cohorts.
Technical Presenter: Delivered high-impact demonstrations of AI/ML projects at college events.
